

Dental Surgeries and Laboratories are the most important indoor spaces to have clean air

The dental profession is the No1 job most dangerous to health!

DENTISTS, DENTAL SURGEONS, DENTAL ASSISTANTS, DENTAL TECHNICIANS,

WHY? Most exposure to contaminants, infection & disease
SOLUTION = Install Radic8's world leading air purification plus sterilisation technology.

Preserve Health + Save Money + Increase Business

Sharing clean air in dental settings offers many benefits:

- REMOVES HARMFUL AIR POLLUTANTS AND ERADICATES AIRBORNE PATHOGENS
- IMPROVES CONCENTRATION AND ENERGY
- IMPROVES PRODUCTIVITY
- REDUCES ABSENTEEISM
- WE SHARE CLEAN AIR POSITIVE PR
- PSYCHOLOGICAL BENEFITS
- STAFF RECRUITMENT AND RETENTION
- REMOVES ODOURS
- MINIMISES SURFACE AND EQUIPMENT CONTAMINATION
- DUTY OF CARE
- GREAT COST SAVINGS

AIRBORNE PARTICLES ARE FOUND TO BE 200% - 600% HIGHER IN MOST DENTAL CLINICS

And these particles can stay airborne for long periods of time – meaning that patients are exposed to high levels of cross contamination whilst they are paying for their treatment.

The Radic8 technology can be uniquely branded

The Radic8 technology combines filtration with optimum sterilisation to create the worlds leading clean air solutions for dental practices.
